

Tool 6.d Primary student survey

Staff Notes

Collecting student feedback can help students to feel connected and invested in the program. Student review of the program can be done in several ways: by a sample group of student, by the whole class as an activity with information collated as part of a discussion, or individually, by all students. The information can be used to review and refine the curriculum and provide important information to the school community.

Primary student relationships and sexuality education survey questions (years 3 - 4)

	Before the program	After the program
I feel.....		
I think.....		
I want.....		
The most interesting thing was...		
I missed out on finding out about.....		

Primary student relationships and sexuality education survey questions (years 5 - 6)

1. Which part of the program did you enjoy the most? Why?

2. What was something you learnt from the program that you didn't know before?

3. What would you like to know more about?

4. Do you feel you have a better understanding of (*insert topic, e.g. puberty*) now?

5. Is there anything that you learnt about in the program that you are worried or concerned about?

6. How will the information be useful to you?

7. Did you learn any new skills? What were they?

8. How can we make the program even better?
